Hi, Janis.

Chris is already out on vacation until 23 July I believe. Regarding the ~120 acre investigation area that we refer to as Aerojet Area 40, Chris said that Aerojet currently owns the land and will continue to own the land until cleanup is complete. At that point (or sometime later), Aerojet would sell the land to a developer. Chris can likely clarify or add to this when he returns. I attached Aerojet's Area 40 site plan with acreage noted:

Jackie and Tammy, please check out Janis' recommendation on using the news/email feature on the Folsom city website for future EPA Area 40 communications.

If we don't talk before then I'll see you at the CAG meeting on 25 July.

Thank you, Janis!
Lynn

Subject: Folsom website + June 18 discussion

Hello Chris,
After we discussed the Folsom website on June 20 I did spend some time looking for information on the Folsom public meeting. I was unable to find anything, but I did notice that they have a news/email feature.
That would be a good mechanism for future information.

That evening we also discussed the conversation we had on June 18 (I believe), regarding my concern about a transfer of land within the contamination zone in the Folsom Planning Area. I'm cc'ing Lynn, as the three of us were on the call. I mentioned to you in Folsom that my notes were not as clear as I would have liked regarding your comments when we were on the phone, and we were discussing (in regards to Pete's presentation) that written material can be much clearer.

I know you may already be on vacation, so for that reason I am cc'ing Lynn. I would be interested in you reiterating those comments for me via email. If it turns out that you are already on vacation, I'll plan to further communicate with Lynn regarding the process.

Thank you for your help!
Janis
